

LIVEHEALTHY DENTAL

Dental practice upgrades to high-performing website

“WeekThink modernized our network of offices and created us a built system that works. Our experience with WeekThink has been amazing.”

Dr. Narducci, DDS

Challenge

The then current website was outdated and had no conversion funnels set up correctly. The challenge was creating a fully functional lead generation website that was also trackable.

Solution

WeekThink built an optimized website with conversion assets in place, such as the CTA buttons, lead form, confirmation page, design, and codes. Using SEO and social media strategies we were able to help our client generate consistent online dentist leads.

252%[↑]

increase in new patient appointment requests

2.3%[↑]

increase in website conversions
